***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09/20/2004 has been entered.

***Response to Amendment***

Amendment filed 09/20/2004 together with aforementioned Request Continued Examination forms the basis for this Official Action. In said Amendment Applicants substantially amended all outstanding claims 1-3 and 4-11 through substantial amendment of both independent claims 1 and 8.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Peter G. Thurlow (Reg. No. 47,138) on 09/28/2004.

The application has been amended as follows:

(a) In Claim 1, line 26 (i.e., one before last), the wording "as the photoelectric conversion mode" has been replaced by "as in the photoelectric conversion mode".

(b) In Claim 8, line 27 (i.e., one before last), the wording "as the photoelectric conversion mode" has been replaced by "as in the photoelectric conversion mode".

END OF EXAMINER'S AMENDMENT.

3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: the Replacement Sheets filed January 3, 2003 (see comments by examiner in Official Actions of 9/4/02 and 1/23/02) have been approved. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

### **REASONS FOR ALLOWANCE**

#### ***Claims 1-3 and 7-11 are allowed***

4. The following is an examiner's statement of reasons for allowance: Closest prior art are Endo et al, Umibe et al and Takeda et al all made of record and cited. The power source by Umibe et al as cited has at least a potential for the photoelectric conversion mode, a potential for the idling mode and a potential for the refresh mode, providing the photoelectric conversion element with an electric field, wherein the potential for the idling mode provides, in the idling mode, the photoelectric element with an electric field weaker than in the photoelectric conversion mode. However, a teaching that the directions of the electric fields in photoelectric and idling modes are the same is absent and forms a distinction with the invention as at least disclosed through page 47, lines 10-26 of the Specification, with reference to Figure 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Johannes P Mondt whose telephone number is 571-272-1919. The examiner can normally be reached on 8:00 - 18:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan J Flynn can be reached on 571-272-1915. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
